

Note of December 22nd

Just a reminder that we will be meeting tomorrow via Zoom at 4 PM. The link is below. I hope all of you can join. I will review a few things for 30-45 minutes and then you can ask any questions about the work you have been doing.

Here are two things you can do to prepare if you have a few minutes.

1) Review the mineral property file that I have placed on my webpage. We will go over each of these properties together.

LINK: <http://fredmhaynes.com/wp-content/uploads/2016/11/Mineral-properties-1.pdf>

2) Look up some of the minerals from the first few classes of minerals and fill in some of the properties for them. I posted a third file yesterday. All three can all be accessed from here:

<http://fredmhaynes.com/science-olympiad/rocksminerals-2016-2017/>

under the heading: Introduction to Rocks and Minerals on the List

3) Take a minute to understand what the difference is between the mineral classes introduced in these three files (i.e. how is a carbonate mineral different from an oxide mineral, etc.).
