Westfield, NY
Lake Erie beach**

N42.340824 W79.599283

Barcelona Beach “sea glass” - It is reported that there is beach glass in this sand, but I could not identify any in my sand samples. Perhaps only in the larger gravel areas of the beach?

**Coarse beach sand with fair-good sorting.
Some quartz, but lots of rock fragments
and a few white shells. (FOV ~ 5mm)**
